

## **Picture the Future! Photo Exercise Instructions**

**Thank you for your interest in the City of Encinitas' Visioning Process!**

*In preparation for the City of Encinitas' General Plan Update, we are inviting community members to show us the key elements and features that help to define our City today and that exemplify our vision and hopes for the future!*

**Step 1** To participate, simply take photos of some aspects of Encinitas such as its built environment, natural resources, commercial areas and people that you feel represent an important asset or best feature within the City. You can also send photos that show an issue or challenge the City may face in the future; or an opportunity the City should explore to keep Encinitas a special place to live, work and play. This is a great opportunity to record, reflect and critique personal and community issues in Encinitas. Participants will explore their outside world and attempt to capture positive and important scenes from their daily lives.

**Step 2** Contact Mike Strong, Associate Planner at 760-943-2101 or [mstrong@cityofencinitas.org](mailto:mstrong@cityofencinitas.org) to coordinate the submission of your photos. It is intended that your photos will be utilized throughout the visioning process.

**Step 3** Sign a release form, which authorizes the City to use submitted photographs in connection with the Comprehensive General Plan Update. The release form is enclosed.

**Step 4** Attend the City of Encinitas City-Wide Workshop on Saturday, May 1, 2010 at 9:00 am – 1:00 pm at the Community and Senior Center, 1140 Oakcrest Park Drive.
